1. WHO WE ARE

REKHAACLN EXPORT PRIVATE LIMITED is an India-based agricultural export company incorporated in 2026, founded with a clear purpose — to connect India's finest fresh produce with international buyers across the Gulf region. We specialize in the export of Fresh Red Onion and Fresh Green Chilli, sourced directly from India's most reputed growing and trading belts.

Our foundation is built on strong compliance and documentation — including Halal Certification, FSSAI approval, APEDA-RCMC registration, and an active IEC Code — giving our international partners complete confidence in doing business with us.

As a young and agile company, we combine the reliability of an experienced trade partner with the energy and responsiveness of a dedicated, hands-on team that is personally invested in every shipment we handle.

02. VISION & MISSION

OUR VISION

Our Vision

To become a globally trusted name in agricultural exports from India — recognized for consistent quality, ethical trade practices, and long-term partnerships with international buyers, while creating a transparent bridge between Indian farmers/traders and global markets.

OUR MISSION

Our Mission

- Deliver consistently fresh, export-grade Onion and Green Chilli to Gulf markets with zero compromise on quality.
- Build long-term, trust-based relationships with international importers and distributors, not one-time transactions.
- Maintain full regulatory compliance and transparent documentation on every shipment we handle.
- Grow responsibly — expanding our product range over time into dehydrated vegetables, whole spices, and ground spices as we scale.
- Ensure fair and direct value for the farmers and traders we source from, while offering our buyers competitive, honest pricing.

Our Core Values

- Quality First — every consignment is checked before it leaves India.
- Transparency — honest pricing, honest communication, honest documentation.
- Reliability — we do what we commit to, on the timeline we commit to.
- Long-Term Thinking — we aim for repeat business, not a single shipment.

INFRASTRUCTURE & SOURCING MODEL

Rekhaacln Export operates on a focused merchant-exporter model. Rather than owning our own farms, we work closely with established mandis, trusted commission agents, and grading/packing facilities in India's leading agricultural belts — allowing us to offer competitive pricing while maintaining strict quality control at every stage.

OUR SOURCING REGIONS

Fresh Red Onion — sourced from Lasalgaon and surrounding mandis in Nashik, Maharashtra, India's largest onion trading hub.

Fresh Green Chilli — sourced from established chilli-growing belts in Gujarat and Andhra Pradesh.

QUALITY CONTROL PROCESS

- ✓ Sourcing only from verified mandi traders and supply partners with a track record of consistent quality.
- ✓ On-site sorting and grading before packing, to ensure size and quality uniformity per shipment.
- ✓ Manual quality inspection at the point of packing — removing damaged, diseased, or undersized produce.
- ✓ Export-grade packaging using mesh bags, jute bags, or custom packaging as per buyer specification.

This partner-based sourcing model allows us to remain flexible and cost-competitive, while our quality checkpoints ensure every shipment meets export standards — without the overheads of owning fixed infrastructure.

STRONG NETWORK

Wide network of trusted mandis, traders & commission agents.

FARMER CONNECT

Direct connect with farmers ensuring fresh & quality produce.

QUALITY ASSURED

Multi-level quality checks for consistent grade & freshness.

EFFICIENT LOGISTICS

Well-planned logistics ensuring timely & safe delivery worldwide.

GLOBAL REACH

Supplying premium Indian produce to buyers globally.

LET'S GROW TOGETHER

Partner with us for consistent quality, reliable supply & long-term success.
